

IRATA LEVEL 3 – Safety Supervisor

BOSTER
www.bosterengineering.com **ENGINEERING**

OVERVIEW

The IRATA Level 3 certificate is the top level in the IRATA certification scheme. The Level 3 builds on the candidates experience and prepares him to take on the roles of Team Leader, Safety Supervisor, Rescue-man and Rigger. Thus far IRATA rope access has an impeccable safety record, this is largely due to the quality of Level 3's in the field. This course aims to maintain, and build on, these high standards.

CONTENT

- Current legislation and regulations
- Equipment selection, inspection, care and maintenance
- Operational planning and risk assessment
- Proficiency in Level 1 and 2 techniques
- Advanced rigging techniques
- Advanced rescue techniques
- Team Management and responsibilities

WHO WILL BENEFIT?

IRATA Level 2 technicians willing and able to take on the responsibility for a rope access team. Candidates must have completed at least a year and 1000 hours as a Level 2 and should have a broad range of experience of different working environments. We would only encourage top quality candidates to apply.

STRUCTURE

The majority of the course is spent practising and refining advanced rescue techniques so that the candidate has the ability and confidence to extract any team member from any possible difficulty. There is also a written paper which concentrates on the candidate's theoretical knowledge.

Note:

- ♦ IRATA has strict requirements on supervision and work practices, this includes working under an IRATA L3 supervisor at all times. Full details can be sourced from www.irata.org

- ♦ IRATA certificate upon successful completion.
- ♦ A t-shirt
- ♦ Pick-up services from Hotel

IRATA TRAINING SCHEME FLOWCHART

Independent IRATA International re-assessments are required every three years at all levels, following a minimum of four days of training.
 Rope access technicians **not** engaged in rope access work for six months or more should attend refresher training.
 Holders of expired Level 2 or Level 3 certificates that have been expired for more than 6 months should contact an IRATA International trainer member company for information on revalidation procedure. To ensure rope access technicians are up to date with certification, re-assessment may be done up to 6 months before due expiry date without any time penalty.
 Each IRATA International member company should ensure employees hold valid qualifications.
